SUSTAINABILITY

At Heritage Hotels, we recognise the importance of our role in protecting and enhancing the environment for future generations and to help secure the long-term sustainability of the tourism industry of New Zealand.

Since early 2000, we have subscribed to an external audit and accreditation system to benchmark our hotel's sustainability practices and have established ourselves as an industry leader in this field.

Qualmark New Zealand is our most recent partner in the audit of our sustainability programmes. To earn this official tourism

environment award, the hotels have had to achieve high levels of efficiency in energy, water and waste management, plus show strong community responsibility during the assessment.

We are pleased to have achieved the Enviro Award Silver status at Rutherford Hotel Nelson.
